

MADE TO LIVE OUT LOUD™

LIVE LIFE OUT LOUD

Dead On® Tools is one of the world's fastest-growing brands of hardware and storage gear today. From its humble beginnings, Dead On Tools has grown to be a household name within the trade. If you enter any job site, chances are you will find Dead On Tools. Our cornerstone products, such as our investment cast hammers, helped build the way for the brand. Today, Dead On Tools still carries its namesake hand tools, but has focused intently on mastering professional tool belts and other styles of gear. The latest installation of tool belts includes serious upgrades like the professional suspension system and belt that boasts a maximum width of 52 inches around. These innovations have helped keep Dead On Tools at the front of the pack.

As additional hand tools like the Exhumer® nail puller series and the ever popular Annihilator® wrecking bars were developed, they quickly became consumer favorites. The popularity of these products has helped put Dead On Tools on the map.

Listening to the needs of our end users led to the innovation and development of our Leather and Canvas Hybrid Tool Belts. This combination is truly unmatched because it was made by the user, for the user.

The Weekend Warrior Gear collection from Dead On Tools is designed specifically for those who Live Life Out Loud! From backpack coolers to duffel bags, this collection is built for those who work hard, and play harder. Whatever life has to offer, we want you to live it to the fullest. Unleash the Weekend Warrior in you with our Weekend Warrior Gear TODAY!

In the more recent past, Dead On Tools has been expanding its brand, promoting the Made To Live Out Loud™ campaign. Here at Dead On Tools, we understand that hard work is an empowering lifestyle that should be celebrated! Dead On Tools has partnered with organizations to help show that Dead On Tools **LIVES LIFE OUT LOUD.**
